## Using the Family and Student Portals

Students and family members, particularly those who are primary adult contacts for a student, use the Family and Student portals to see the student's information, academic progress, assignment information, and more.

### Notes:

- If you have not done so already, you need to create an Aspen account.
- You can see [frequently asked questions](#) (and answers) about using the portals on a desktop/laptop.

A student and their parents/guardians can access the Student and Family portals in two ways:

- Access the computer, such as a laptop:

The screenshot displays the Bay Middle School Family and Student Portal. The top navigation bar includes tabs for Family, Academics, Groups, and Calendar. A sidebar on the left contains links for Home, Other, Bay Middle, and Page Directory. The main content area features a 'Bay Bulletin Board' with a 'Drama Production' announcement. The announcement is dated 9/27/2020 and includes the following text:

## Aspen for Students and Families

Students and family members, particularly those who are primary adult contacts for a student, use the Family and Student portals to see the student's information, academic progress, groups and calendars.

### Notes:

- If you have not done so already, you need to create an Aspen account. [create an Aspen account](#).
- You can see [frequently asked questions \(and answers\)](#) about using the portals on a desktop/laptop.

With Aspen's Family and Student portals, teachers, parents and students have an arena for open communication. Parents have one login to access all of their children's information, and students can enter course requests online.

For a quick peek at your school, class and groups information, use the **Pages** tab.

Depending on how your district or school has the portal set up, you can use the [tab](#) **Family/My Info** tab to view information including demographics, attendance, conduct and transcripts.

For the current school year, use the **Academics** tab to view the following academic information for each class:

- Details, including student attendance summary and grades
- Assignments, including due dates and scores

You can also:

- Use the **Groups** tab to view the groups the student is enrolled in (such as Band and Math team).
- Use the **Calendar** tab to view a monthly calendar. Customize and color-code the calendar for each student to include their academic, extracurricular and school events. You can also view assignments you should be working on and when they are due on your Calendar.
- Report a bullying incident from the homepage.
- Email teachers, and sign up for email subscriptions for when grades fall below a specified threshold.
- Receive email notificationsReceive email notifications on your mobile device from the district, school or teachers about announcements, alerts and events.
- Receive automatic notifications and messages on your mobile device.

**Note:** Depending on your district's settings, you may need to verify the name and date of birth of your student(s) the first time you log on to the Family portal. In the desktop version of Aspen, enter this information for each student in your family in the **Request for Student Access** widget. Then, you can view your student's information in the Family portal.

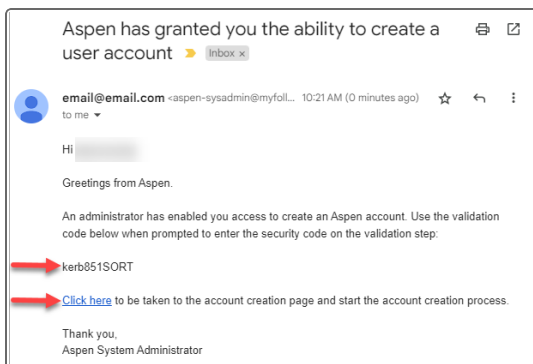

### Create an Aspen account with an email link

Most districts send an email to new users with a link and validation code to set up an account. If you do not receive the email, ask your school registrar if you have been given Family portal access, and confirm they have your correct email address.

**Note:**

- Your/your child's school manages your Aspen user account. If you can't log in, contact your school. (Follett doesn't manage user accounts and can't help with system access.)

1. The email looks similar to the one below, with a validation code and a link. Click the link:

2. The Validation Information pop-up appears. Enter the validation code from the email, your last name, and phone number. Then click **Next Step**.

## Using the Family and Student Portals

This is the recommended way to set up an Aspen user account.

It is, however, possible to request an account from the Aspen login page.

**Note:** Your/your child's school manages your Aspen user account. If you can't log in, contact your school. (Follett doesn't manage user accounts and can't help with system access.)

- **Home Page:** Click  to view your Home page. Often this is your school's Page.
- **Academic Pages:** Click the down arrow to view class pages in this category. At the beginning of each school year, you will have to use the Page Directory to add class pages to your **Quick Access** menu.

- The categories of Pages that appear in the **Quick Access** menu depend on which groups you are a member of. For example, if you do not participate on a sports team that has a Page, you will not see the **Athletic** category.
- All Aspen users have a Home page and a Page Directory.
- Not all groups, clubs, teams, and classes have their own Page.

Following are some things you can do on the **Pages** tab:

- Use the To Do widget.
- Submit assignments online.
- Use the Page Directory.
- Take an online quiz. (Aspen Curriculum & Learning)
- Set your forum preferences.

## View Recent Activity

You can add the Recent activity widget to the homepage. Click **Edit Page** and select **Student Recent Activity**. It appears in a box on the homepage.

The screenshot shows the Aspen Schools portal homepage. The top navigation bar includes 'Pages', 'My Info', 'Academics', 'Groups', 'Calendar', 'Locker', and 'Destiny'. The main content area is titled 'Aspen Videos Homepage' and features an 'Announcements' section with a message: 'Attention students: The term ends Friday. Be sure to have all your work done and turned in!'. Below this is the 'Recent Activity' widget, which is highlighted with a red box. It displays a list of activity items, including dates and descriptions like 'Attendance (Absent) Class: Art - 6 Period: 6'. The widget also includes a search bar, a 'Last 30 days' filter, and checkboxes for 'Attendance', 'Grades', and 'Conduct'. At the bottom, there are sections for 'Aspen Schools - Links' (with links to Aspen Schools, District Calendar, Staff Email, and PD Forms) and a 'To Do' section (with checkboxes for Overdue Online Assignments, Tomorrow, and Today/Week View).

**To view recent activity:**

3. Next to each student's name, a number lists how many records meet your search criteria. To view a student's information, click the arrow  next to his or her name. A summary of the record appears.

4. To view specific information for a record, click the record. For example, if a student receives a grade for an assignment, click the record to view the assignment details.

5. In the **Search** field, enter text you want to search for. For example, if you want to find the latest Latin grade, type **Latin**. To view all records again, delete the text in the **Search** field.

**Note:** You can determine whether you want recent activity to display on your Home page in your [user preferences](#).

**Note:** If your school does not take period attendance for a course, it will not appear in the **Recent Activity** list.

### Use the To Do widget

All students and parents automatically see the To Do widget on their Home page. This widget helps students stay on top of assignments that require immediate attention.

By default, the To Do widget lists overdue online assignments, as well as all assignments that are due today and tomorrow. Students have the option of selecting a checkbox when they complete an assignment.

#### Notes:

- This checkbox is a visual reminder only. The system does not verify that a student has actually completed an assignment.
- Sometimes students take classes at more than one school during a term. In those cases, assignments for the student's primary and secondary schools appear here.

For parents, the To Do widget includes a drop-down for selecting which child's assignments they want to view. By clicking into an assignment's details, parents can download and view the assignment that their child submitted.

### Academic, Athletic, Club, and Other Pages in the Portal

In addition to [the Home page](#), you likely have access to other types of Pages. Page access is determined by the groups that you are a member of.

For example, a student might see English Literature, Pre-Calculus, Biology, and American Studies pages; a basketball Page; a chess tournament Page; and an after-school program Page.

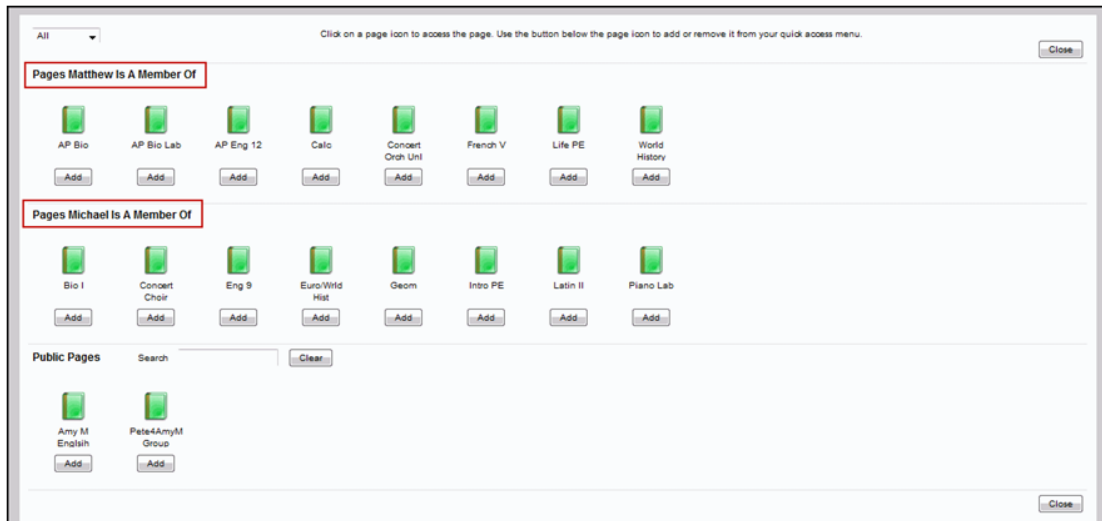

A parent has access to each of their children's Pages – including academic, athletic, club, and other Pages. Plus, if they are a member of the parent-teacher organization, they would have access to the PTO Page.

#### Notes:

- Not all classes, sports teams, clubs, and groups have their own Page.
- Just being a member of a Page does not mean that you automatically see it on your **Pages** tab. [Use the Page Directory](#) to add and remove Pages from your **Quick Access** menu as needed.
- Removing a Page from the Page Directory does not delete it.

#### To view Pages for yourself and your student(s):

1. Go to the Home page or **Pages** tab.
2. Click **Page Directory**. The following pop-up appears.

**Note:** If you have more than one student, you will see the Pages that each one is a member of.

3. For each of your students, click **Add** under the icon/name of the Page you want to add to your **Quick Access** menu.
4. Click **Add** under the name/icon of any public Pages you want to add.

**Note:** You can browse public Pages and add them to your **Quick Access** menu, but this does not mean that you are a member of the group. For example, if your school Page is a public Page, you would be able to read a blog that is posted but not create your own entries.

5. Click **Close**. The Pages you selected are accessible from your **Quick Access** menu.

### Use the Page Directory

Use the Page Directory to determine which Pages appear in the Quick Access menu on the Pages tab and homepage. The Quick Access menu is the left-hand bar containing your favorite Pages.

The Page Directory lets you see which Pages you are a member of, as well as add and remove Pages from the Quick Access menu. You can also browse a Page to decide whether you want to add it to your menu.

#### Notes:

- At the beginning of every school year, you need to use the Page Directory to add the Pages you want to see to your Quick Access menu. They do not automatically appear.
- In the Page Directory, all Pages that have been added to your Quick Access menu have a gray box around them as a quick visual cue.
- Throughout the school year, you can change which Pages appear on your Quick Access menu. For example, maybe you used to check the Drama Club Page often, but now that the performance is over, you do not need to visit that Page. You can remove it from your Quick Access menu; then, if you need to access it again in the future, you can add it back to the menu.

### To view which Pages you have access to:

1. Go to the Home page or **Pages** tab.
2. Click **Page Directory**. The Page Directory pop-up appears.

Under **Pages I'm a Member Of**, an icon appears for each Page you are a member of, such as the Yearbook, Drama Club, or Varsity Soccer page.

Under **Public Pages**, an icon appears for each Page that all users are able to view, such as your school's Page or the district Page.

3. If there are a large number of Pages, there are two ways to narrow down the list. Do either or both of the following:

- Click the **All** drop-down at the top of the pop-up to select **Academic**, **Athletic**, **Club**, or **Other**. Only the type of Page you select appears. Select **All** to return to the full list of Pages.

**Note:** If you do not have access to a particular type of Page, you will not see it in your drop-down. For example, if you are not a member of any sports team that has a Page, **Athletic** will not be an option.

- Within the **Public Pages** area, in the **Search** field, type a key word, such as **Literature**. Any public Pages with that word in their name appear. To return to viewing all public Pages, click **Clear**.

**Note:** You can browse public Pages and add them to your **Quick Access** menu, but this

does not mean that you are a member of the group. For example, if your school Page is a public Page, you would be able to read a blog that is posted but not create your own entries.

4. To determine which Pages appear in your **Quick Access** menu, do any of the following:
  - To view a Page's details – the Page title, adult responsible, and which school the Page is associated with – hover over the Page icon.
  - To browse a Page to see if you want to add it to your **Quick Access** menu, click the Page's icon. The Page opens, and the Page name appears under **Browsing** in the **Quick Access** menu

- To add a Page to your **Quick Access** menu, under the Page's icon/name, click **Add**.
- To remove a Page from your **Quick Access** menu, under the Page's icon/name, click **Remove**.

**Note:** Removing a Page does not delete it; it just makes it unavailable to select from the **Quick Access** menu.

5. Click **Close**. The Pages you added are now accessible from your **Quick Access** menu.
6. To show and hide individual Pages on your **Quick Access** menu, do the following:
  - To show (expand) the Pages in a particular category, such as **Academic**, click the down arrow ▼ under **Academic**.
  - To hide (contract) the Pages in a particular category, click the up arrow ▲. The list of Pages in that category contracts.

### Take an online quiz

Sometimes, your teachers might create online quizzes. You can take these quizzes in the Student portal.

### To take an online quiz:

1. Log on to the Student portal.
2. On your Home page, look at the To Do widget:

4. Click the **Assignment name**. Any information you need to complete the assignment appears.  
If the assignment is an online quiz, the quiz appears in the **Attachments** field.
5. Click the quiz to open it.
6. Read the instructions or information on the first page, then click **Begin**.  
The first question appears.
7. Follow the directions to answer the question(s) on the page. When you are done, click **Next** at the bottom of the page.

**STOP:** If you cannot click **Back** at the bottom of the page, your teacher has designed this quiz so that you **CANNOT** go back and review or change your original answers. If you cannot click **Back**, be sure you have done your best answering the question. After you click **Next**, you cannot go back to change it.

If you **CAN** click the **Back** button, your teacher has designed the quiz so that you can return to previous questions for review or changes.

8. On the page that has the last question(s), **Finish** appears at the bottom of the page. Click **Finish** to save your answers. A message confirms that your completed quiz was submitted successfully. The teacher can now review and score your quiz.

### Set your forum preferences

If your district allows photos to be used for forums, you can decide whether you want the photo that is in Aspen to be displayed next to your forum posts. If you do not want to use the photo in the system, a generic silhouette will appear next to your name whenever you post to a forum.

### To set your forum preferences:

1. On the settings bar, click **Set Preferences**. The preferences pop-up appears.
2. Click the **Collaboration** tab.
3. Under Forum Options, at the **Forum posts per page** field, type the number of posts you want to see on each page.

**Note:** For forums with a lot of posts, typing a small number means there will be many pages to click through; typing a big number means you will have to do more scrolling to get to the bottom of the page.

4. If your district allows school photos to be used in forums and you have a photo in Aspen, the **Use school photo** field and your photo appear. Do one of the following:
  - Select this checkbox to have this photo appear next to any posts you make to forums.
  - Deselect this checkbox to not use your school photo. A generic silhouette will appear next to your name for any posts you make to forums.

**Note:** If your district does not allow photos or your district allows photos but you do not have one in the system, the **Use school photo** field does not appear. A generic silhouette will appear next to your name if you post to a forum.

### Post to a forum

Some of your Pages will include a Forums widget, so that Page members can have online discussions. A forum typically represents a category or theme, and each can contain one or more topics where the discussions take place.

**Note:** Only Page administrators can create forums. Any Page member can create a topic for that forum.

Forums are either moderated or unmoderated. If a forum is moderated, a Page administrator has to approve your post before it can be viewed by all Page members. If a forum is unmoderated, your post can be seen by all Page members as soon as you submit it. Page administrators always have the option of hiding a post, even if it has been approved.

When you create or reply to a post, either the photo of yourself that is in Aspen or a generic silhouette appears, depending on your district and personal forum preferences.

### To post to a forum:

1. In the Forums widget, click the name of the forum you want to post to, such as The Post-Classical Era.

Discussion Forum Title	Topics
 The Post-Classical Era	3 
 Modernism	0 

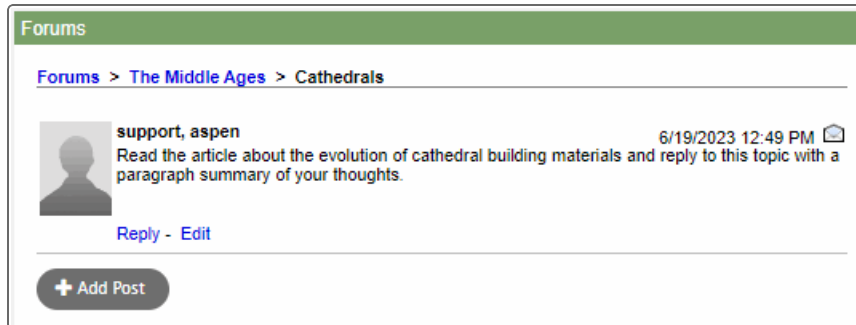

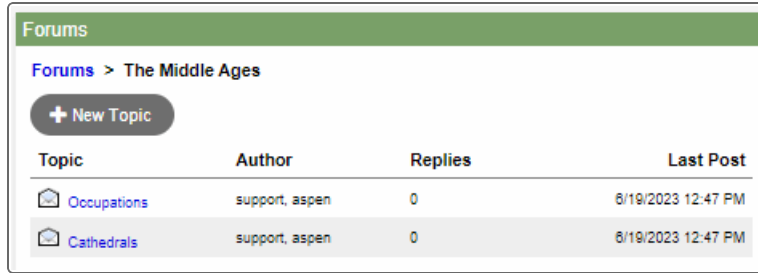

A list of existing topics appears.

- To create a new post on the forum's topic, click **Add Post**. Type your message, using the rich text editor tools, if desired.

**Note:** If you are not sure whether to reply to a post or add a new one:

- Click **Reply** if you have something to say in response to a post someone else made. For example, to say that you agree with Ann's comments about the early Middle Ages, click **Reply** at the bottom of her post.
- Click **Add Post** if you have information to share on the topic's subject that is not necessarily in response to a specific comment someone else made. For example, to summarize your thoughts about an article on the early Middle Ages, click **Add Post**.

4. Click **Save**.

**Notes:**

- If the forum is moderated, your post will have to be approved or edited by the Page administrator before it is available for all members to read. You can see your own post while it is awaiting review—it says (Requires Moderation) at the top.
- If the forum is unmoderated, anything you post will be immediately accessible by all Page members. Page administrators have the option of hiding a post at any time.

#### To enter your requests:

1. Log on to the Student view.
2. Select **My Info > Requests**. The Requests page appears.
3. At the top of the page, in the **Instructions** box, read and follow the instructions for entering your requests.

**Note:** If any of your courses are required or recommended by your teachers, they might automatically appear as requests when you first view the Requests page.

4. In the **Primary requests** box, select your requests for the different subject areas. For example, to select your request for a math course, click **Select** next to Math. The courses you can request appear.

Use the following tips when selecting a course to request:

- If your teacher recommended a course, a checkmark appears in the **Select** column. That course becomes a course request when you click **OK**.

- The **Status** column displays information about the course, such as if the course is full, or if this is the course your current teacher recommended for you. Depending on the subject, you can either select any course, or are required to accept the courses recommended for you.
- If your teacher entered comments about a recommendation for you,  appears in the **Status** column. Click the icon to view the comments.
- If your school allows you to set the priority for your courses, you can type a number in the **Priority** column to prioritize them. 1 is the highest priority. Leave the field blank if you do not want to set a priority value.

**Example:** If you have three elective courses and you want to prioritize them, you would type 1 for the course you want most, 2 for the course you want second most, and 3 for your third choice. Your priorities might look like this:

Select	CourseNumber	CourseDescription	mic level	Credit	Prerequisite	Status	Priority
<input type="checkbox"/>	OA091	Writing Seminar		0.0			<input type="text" value="2"/>
<input type="checkbox"/>	OA130AP	Microeconomics AP		0.0			<input type="text" value="1"/>
<input type="checkbox"/>	OA355	Science Team		0.0			<input type="text"/>
<input type="checkbox"/>	OA356	Forensic Science		0.0			<input type="text"/>
<input type="checkbox"/>	OA357	Intro to Human Anatomy & Physiology		0.0			<input type="text" value="3"/>

5. Select the checkbox in the **Select** column of the course(s) you want to request, and click **OK**. The requests now appear on your Requests page.

**Note:** To remove a request from your Requests page, click the **Select** checkbox again to deselect it.

Your requests are automatically saved after you enter them on the Requests page. Your counselor can view them anytime.

7. After you complete entering your requests, click **Post** at the bottom of the page. This lets your counselor know that you are finished entering requests. If you have not selected enough courses to satisfy requirements for your academic track, the system lets you know which area you need to make more requests in:

**Note:** Once your counselor approves your requests, you can no longer make changes to your course selections.

### In the Family portal:

#### To view the student's course requests for the next year:

1. Click the **Family** tab.
2. Click the **Schedule** side-tab, and then click **Requests**.

#### Subscribe to email notifications

When your school uses email notifications, parents and students can subscribe to receive email messages about the following events:

- Conduct
- Health visit
- Daily attendance
- Class attendance
- Minimum grade (a grade falls below a threshold you define)

**Note:** Aspen creates a record for each event and gives it a timestamp. Your district sets up a "job" that tells Aspen to send the emails. The timing of when the email is sent depends on the timestamp on the record and when your district runs the job (usually within a seven-day window).

**Example:** In the Hale school district, Aspen runs the job to send email notifications for conduct incidents every Tuesday night. On Tuesday April 1, Aspen runs the job as usual. On Wednesday April 2, Cole has a conduct incident. When Aspen runs the job on Tuesday, April 8, an email notification is sent for Cole. This is because the incident's timestamp is after April 1, and falls within the window of when the job was run (April 1 through April 8).

#### To subscribe to email notifications:

1. Do one of the following:
  - In the Family portal: Click the **Family** tab.
  - In the Student portal: Click the **My Info** tab.

2. Click the **Notification** side-tab.

In the space below, please enter a grade threshold to use for determining what grades to report. This should be a number from 0 to 100. For example, an entry of 75 would trigger a notification for any grade entered that scaled below 75%.  Grade Threshold <input type="text" value="0"/>

For each subscription, the system sends the appropriate messages to the designated email account. To view/change this account, click **Set Preferences** on the settings bar at the top of the page, then the **Security** sub-tab.

- By [submitting your own Google Doc](#) from your Google Drive™.

1. Log on to the Student portal.
2. Do one of the following:
3. In the To Do widget, click the assignment name. The Assignment pop-up appears.

### Add Folders

Add your own folders to My Resources to organize your school work. For example, you might make a folder for the current year. Within that folder, create a folder for each class. Then, within each class folder, you can store your files, links, and even notes. My Resources can act like your online class binder!

You can also create a student portfolio to store your best work from each school year. This way, when senior year rolls around, you have quick and easy access to all of your portfolio pieces. You can even link to your portfolio video that you have posted on the web.

**Note:** My Resources has a storage quota set by your district; you have a limited amount of storage space.

### To create folders in My Resources:

1. Be sure that the Group Folder is not selected.
2. At the bottom of My Resources, click **Add**, and then **Folder**:

The screenshot shows a 'My Resources' interface with a green header. Below the header is a list of folders and files. A context menu is open over the 'New Text Document.txt' file, showing options: File, Google Doc, Note, Weblink, Folder (highlighted with a mouse cursor), and Multiple Files. At the bottom, there are buttons for 'Add' and 'Edit', and a quota indicator 'My Quota (249 MB left)'.

4. To make a folder within that folder, select the folder; and then click **Add > Folder**. The new folder appears within the folder you first created.

**Note:** If your district allows custom Group Resources for each tab on a page, any folder you add to My Resources that matches the name of a tab does not appear in other tabs on the page. An example would

be if you had a tab for each of the three groups in your class, Red, Blue and Green, a folder named Green would not appear in the Red and Blue tabs.

**Note:** You can click, drag, and drop files, links, notes, and folders within the My Resources folders that you create.

### Add Files

My Resources is a great place to store drafts of your work. This way, you can access them from any computer with Internet access.

7. Click **Save**.

### Add Notes

Or, if you are at the library doing research for a paper, you can type your notes, and copy weblinks into your notes to save all of your information.

#### To add notes to My Resources:

1. Select the folder you want to store the files in.

The screenshot shows a web form for adding a note. The form is titled "Details" and has a "Note" header. It contains a "Title \*" field, a rich text editor with a toolbar (including icons for grid, image, link, list, and text formatting), and a "Text \*" field. At the bottom, there are "Save" and "Cancel" buttons.

5. Click **Save**.

**Note:** You can also upload Google Docs™ to My Resources for easy access.

### Keep Enough Free Space

You have a limited amount of storage space in My Resources, which is determined by your school district. The amount of storage space you have is called a quota. View the amount of space you have used at the

bottom of My Resources:

Click **My Quota** to see all of your resources and the amount of space they take.

If you are running low on available space, select several files you no longer need, and click **Delete**. Keep in mind that once you delete files, you can no longer access them.

### Using Destiny to Search for Digital Content

The internet is full of content, but it can be hard to find resources that are specific, appropriate, and relevant for your classroom.

Accessed from Aspen's Staff view and Student portal, the Destiny tab includes up to four search tools to help teachers and students find appropriate digital content.

## Using the Family and Student Portals

Use Destiny's search tools to navigate the internet and your library collection, refine search results, and efficiently access resources. Each tool has its own side-tab:

- [WebPath Express™](#): A digital content subscription of more than 80,000 credible, content-safe, and age-appropriate websites that are evaluated and assessed by educators regularly.

**Note:** WebPath Express is an additional subscription your district can purchase.

- [One Search™](#): A school's collection of subscription and free online databases.
- [Digital Resources](#): A school's digital resources, which might include Follett's Resources Services, or another digital resources service.
- [Destiny](#): A school's library resources, available through a link to Destiny Library Manager.

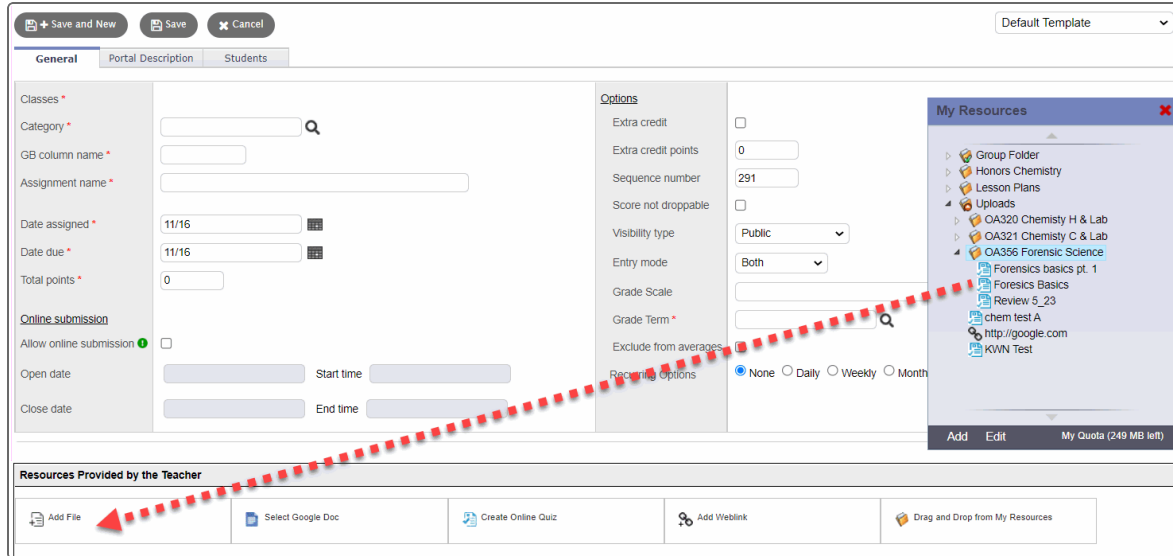

When you find a link or resource worth saving, you can drag and drop it into My Resources. This way, you can instantly share it on a Page by placing it in a group folder, or store it in a personal folder to access when you need it.

For example, as a teacher, you might find a great website for students to use when completing tonight's lesson. Drag and drop the link from the search tool on the **Destiny** tab to a folder for that unit in My Resources.

The screenshot shows a search interface with a search bar containing the word "acid" and a "Search" button. Below the search bar, there are search results for "Nucleic Acids Tutorial and Problem Set" and "Rocks Minerals and Landforms Science Kit". A red dashed arrow points from the "Nucleic Acids Tutorial and Problem Set" result to a folder named "Nucleic Acids Tutorial and Pro" in the "My Resources" sidebar. The sidebar also contains other folders and files like "Astronomy", "Biology", "Chemistry Files", "Class Page Resources", "Google Docs", "Group Folder", "Mr. A's Files", "New Folder (2)", "Uploads", "Acid Base Lab with Rubric", "Igniting Chemistry in Firework", "Literary Criticism", "mastrangelo\_plummer.pptx", "My first Physics Book", "Periodic Table of Elements.pdf", "pH Lab initial values", "Physics Vectors.pdf", "Pros vs Cons.xlsx", "Sample Quiz", "Standards-based RC Tjian.pdf", and "TEST.docx".

Then, as you create the assignment, drag and drop the links from My Resources to the **Resources Provided by the Teacher** section. Your students can go to the Student portal to access the links and any other resources you provide for them.

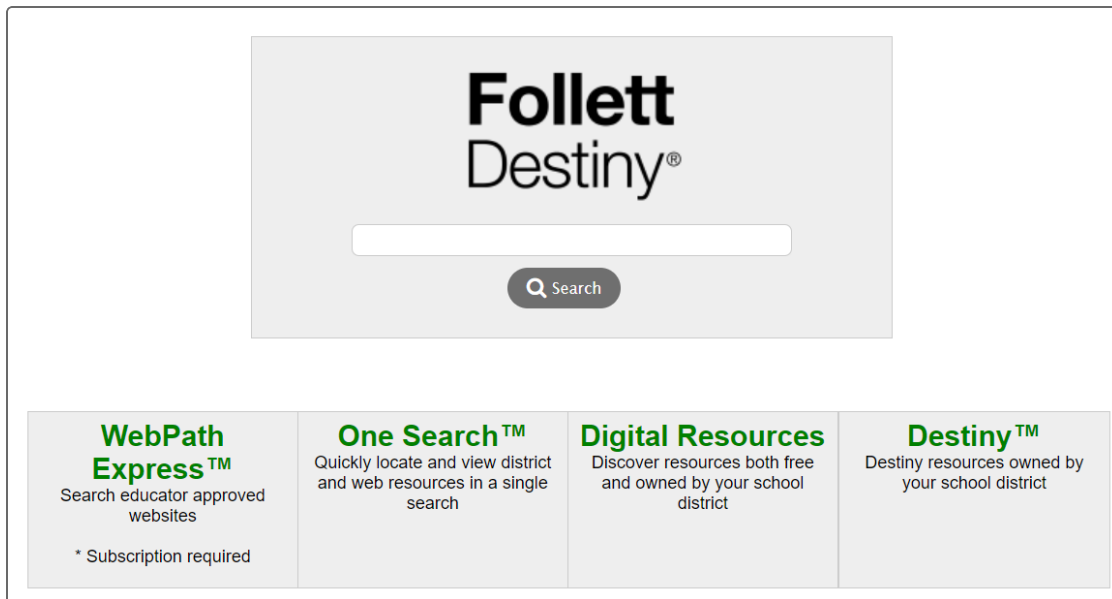

## WebPath Express

WebPath Express provides instant access to grade-appropriate, educator-approved websites.

**Note:** WebPath Express is an additional subscription your district can purchase.

2. Click the **Destiny** tab.

### Using the Social and Emotional Support Module

Your district might use the Social and Emotional Support module, which helps identify and support students who need assistance with academic or personal challenges.

The process starts when a referral is entered into the Social and Emotional Portal Referral widget. A parent, teacher, or any other person with an Aspen login can submit the referral. Students can also refer themselves or a friend they are concerned about.

#### To enter a referral for a student:

1. Log on to the Family or Student portal.
2. Click the **Pages** tab to view your homepage. The Social Emotional Portal Referral widget appears.

3. At the **Student** field, type the name of the student you are submitting a referral for.
4. Click **Save**. The widget expands.

## Using the Family and Student Portals

Below the header, there is a green bar with the text "Please submit your Social Emotional Support Referral." and a sub-instruction: "Type a student's name and press the 'Enter' key on your keyboard to view the rest of the form." The form itself is a light gray box with several fields on the left and larger text areas on the right. The fields on the left are: "Student \*" with the value "nick norris"; "Referrer Email \*" with the value "nicknorris@norris.com"; "Relationship to Student \*" with a dropdown menu; "Issues/Concerns prompting recommendation \*" with a large empty text area; and "Additional Concerns" with another large empty text area. At the bottom of the form are two buttons: "Save" and "Clear".

## Aspen Mobile for Students and Families

With Aspen's Student and Family portals, teachers, parents, and students have an arena for open communication. And, parents can see all of their children's information with a single login.

To access all features of the portals, log on to the full site by typing your district's Aspen URL into a web browser on your desktop or laptop computer.

For quick, convenient portal access, however, you can log on to Aspen Mobile. This streamlined, on-the-go version of Aspen lets you check your or your student's information anytime, anywhere – even from a smartphone or tablet.

### Notes:

- In some districts, when parents log on to the Family portal from their desktop or laptop, Aspen Mobile opens automatically.
- Aspen Mobile adjusts based on the screen size of your mobile device or browser window. What you see might be slightly different than what is shown here.
- Students and families will see slightly different sets of screens in their respective portals.
- Your district's settings determine whether you use Aspen Mobile or the [New Portal](#) for mobile access to your student's information.

**To access Aspen Mobile for students and families:**

### Notifications

If your school uses email notifications, parents can subscribe to receive email messages about the following events:

- Conduct
- Health visit
- Daily attendance
- Class attendance
- Minimum grade (a grade falls below a threshold you define)

**Note:** Aspen creates a record for each event and gives it a timestamp. Your district sets up a "job" that tells Aspen to send the emails. The timing of when the email is sent depends on the timestamp on the record and when your district runs the job (usually within a seven-day window).

**Example:** In the Hale school district, Aspen runs the job to send email notifications for conduct incidents every Tuesday night. On Tuesday April 1, Aspen runs the job as usual. On Wednesday April 2, Cole has a conduct incident. When Aspen runs the job on Tuesday, April 8, an email notification is sent for Cole. This is because the incident's timestamp is after April 1, and falls within the window of when the job was run (April 1 through April 8).

1. To subscribe to email notifications, tap  >  Family. The Notifications screen appears.

The screenshot shows the 'Family' portal for 'Mcneeley, Patrick'. The 'Notification' dropdown is set to 'Notification'. Under 'Subscriptions for email notifications about Mcneeley, Patrick', there are three sections:

- Primary address:**  [lcostello@gmail.com](mailto:lcostello@gmail.com)
- Secondary address:**  [lcostello@yahoo.com](mailto:lcostello@yahoo.com)
- Attendance:**  Attendance. Description: This subscription will notify you of any attendance entry for this student.
- Conduct:**  Conduct. Description: This subscription will notify you of any conduct incident by this student.
- Grades:**  Grades. Description: This subscription will notify you when any grades below a specified threshold are entered for this student. Grades are scaled as a percent from 0 to 100. If a student receives a class assignment or test grade that is below the specified threshold, a notification will be sent to your email address. In the space below, please enter a grade threshold to use for determining what grades to report.

- At the top of the page, any email addresses associated with your account appear. Tap the checkbox next to each email address you want to receive notifications.
- After reading the description of each subscription, tap the checkbox next to its name to receive that email notification.

**Note:** For the **Grades** notification, define a **Grade Threshold** between 1 and 100. The system will send an email when the student receives a grade below that percentage.

- Tap **Submit** to save.

**Note:** For each subscription, the system sends the appropriate messages to the designated email account. To view/change this account, tap **Preferences**.

### Groups

You can see a detailed list of the groups your student belongs to, including:

### Balancing Equations

---

#### Homework

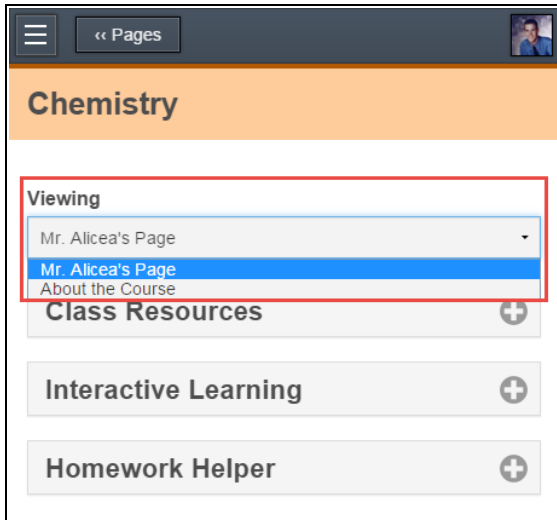

Write the unbalanced equation.  $\text{SnO}_2 + \text{H}_2 \rightarrow \text{Sn} + \text{H}_2\text{O}$  Balance the equation. Look at the equation and see which elements are not balanced. In this case, there are two oxygen atoms on the lefthand side of the equation and only one on the righthand side. Correct this by putting a coefficient of 2 in front of water:  $\text{SnO}_2 + \text{H}_2 \rightarrow \text{Sn} + 2 \text{H}_2\text{O}$  This puts the hydrogen atoms out of balance. Now there are two hydrogen atoms on the left and four hydrogen atoms on the right. To get four hydrogen atoms on the right, add a coefficient of 2 for the hydrogen gas. Remember, coefficients are multipliers, so if we write  $2 \text{H}_2\text{O}$  it denotes  $2 \times 2 = 4$  hydrogen atoms and  $2 \times 1 = 2$  oxygen atoms.  $\text{SnO}_2 + 2 \text{H}_2 \rightarrow \text{Sn} + 2 \text{H}_2\text{O}$  The equation is now balanced. Be sure to double-check your math! Each side of the equation has 1 atom of Sn, 2 atoms of O, and 4 atoms of H. Indicate the physical states of the reactants and products. To do this, you need to be familiar with the properties of various compounds or you need to be told what the phases are for the chemicals in the reaction. Oxides are solids, hydrogen forms a diatomic gas, tin is a solid, and the term 'water vapor' indicates that water is in the gas phase:  $\text{SnO}_2(\text{s}) + 2 \text{H}_2(\text{g}) \rightarrow \text{Sn}(\text{s}) + 2 \text{H}_2\text{O}(\text{g})$
